NEWS of the WEEK

ONE MAN CORPORATION

Chicago, Ill. -- Financial pages of the Chicago Tribune have printed an unusual offering of securities, an issue of \$5,250,000 in bonds of George Cardinal Mundelein, Catholic Bishop of Chicago, designated "A Corporation Sole," a one-man corporation. Security of the Cardinal's issue includes churches, 9 seminaries, 350 parochial schools, 64 academies, 71 homes, hospitals, nurseries, day-care centers, industrial schools.

WILD-LIFE PROTECTION

Washington, D. C. -- Stirred to action by the vigorous demands of the National Wildlife Federation, the National American Wildlife Federation, representing 100,000 organizations of U. S., Canadian and Mexican, secured concerted action toward establishing "agencies" for securing adequate public recognition of the value of wild-life resources.

SUBSTANTIAL WHIRLWIND

Manchester, Iowa -- H. B. Christ, driving his car through heavy snow, was ahead of him "a little whirlwind," like you see in Summer. He clambered out of the car, and he discovered he had been blown into a State snow-plow.

WHEELY ON NON-STOP RUN

Chicago, Ill. -- Announcing he was stopping just to let people know, David Quinn opened up the doors of his high-speed trolley, and it careened without stopping all the way to the end of the "Sissies" he cried as his passengers hastened out of the car. He had to answer a charge of driving an electrically propelled vehicle while intoxicated.

A NEAT TRICK

London, England -- A magician, smiling at the Somerset Light Infantry Depot put three parts of a safety razor in his mouth, drank glasses of water and pulled the razor fully assembled. It came out a recruit. Doctors dislodged the parts from his mouth without operating.

DEN STATE DEMANDS GOLD

Los Angeles, Cal. -- Along California's 1,100-mile borders police officers turned back a thousand would-be visitors who couldn't show that they had money or a job. Insisting their right to cross the state, some went to jail. The move inaugurated by James E. Davis, police chief, exasperated a number of uninvited travelers who reached town and landed on the streets.

"BABY RACE" FOR \$500,000

Montreal, Can. -- Mrs. Matthews still leads in her ten-year-old "baby race" for \$500,000 as the prize for the greatest number of children since 1926. In spite of the fact that her 16th child died at birth, she still stands at the head of the sweepstakes set up ten years ago by wealthy local residents.

UNCLE SAM PRESENTS BILL

Washington, D. C. -- For six years the Treasury Department and John D. Rockefeller have warred over an assessment of \$15,978 for income tax. Uncle Sam has just presented the New York financier, Chairman of the Democratic National Committee, with a much larger bill, for \$440, charging, as it did in the case of Mr. Rockefeller's associate and Liberty Leaguer, Pierre S. Dreyfus, that the two established stock losses through sales in 1929 Mr. du Pont's loss for \$2,397,832.

JAMES H. SWAN

James Herbert Swan, for many years a resident of East Bethel, died suddenly at the home of his son Albert at Locke Mills Wednesday evening.

Mr. Swan was born in Paris, June 6, 1852, the son of Leander and Harriet Decoster Swan. On Oct. 5, 1879, he married Miss Nina B. Mason of Norway, who passed away on Feb. 7, 1935. Mr. Swan was employed in Massachusetts several years when a young man, coming to the farm at East Bethel in March, 1880, where he lived until about a year ago.

He is survived by three daughters, Mrs. Grace Haines, Mrs. Jennie Mitchell, and Mrs. Blanche Trask, all of Bethel; three sons, Edgar of Providence, R. I., Albert of Locke Mills, and Russell of Connecticut; 19 grandchildren, nine great-grandchildren; and four brothers, Horace, Ferdinand and Howard Swan of South Paris, and Eli Swan of Portland. Three children died in infancy and the oldest son, Carl, died in 1934.

Funeral services will be held at the church at East Bethel Saturday at 2 p. m.

NORWAY QUINT AT GOULD

WEDNESDAY, FEB. 19

On Wednesday, Feb. 19th, Gould's greatest rival, Norway, will be here for a return engagement on the basketball court. The visitors are coming bent on giving the local "Blue and Gold" a second setback. The game at Norway ended with the local team staging a great rally, only to fall short 23-19. The Academy team has been giving a better brand of basketball of late and should put up a good battle.

The visitors are the only ones who have been able to conquer So. Paris in the league this year. They also held the League leading Oxford club to a 19-17 score and a 22-21 score although they lost both games. There should be plenty of action and thrills here next Wednesday. The second team will play at 7:15 and the varsity at 8:15. Irving Todd of Mexico will officiate.

FRANK R. FLINT

Frank R. Flint, well known Bethel man and a friend of everyone who knew him, died Monday morning at 11:40 o'clock after being stricken with a heart attack as he was walking in the driveway at his home on Main Street. He had been in failing health for a number of weeks, but had been able to continue his duties as a school bus driver.

Mr. Flint was born at Fryeburg, Aug. 7, 1874, but when a lad of seven came to Bethel with his parents. He was educated in the Bethel schools. In 1897 he married Miss Blanche Penley. Mr. Flint was employed at the Bethel chair factory for about 20 years, later becoming proprietor of the Star Lunch now known as the Pine Tree Restaurant. He is survived by his widow; a son, Henry M. Flint; a daughter, Mrs. Charles H. Swan, and a granddaughter, Lorraine Swan, all of Bethel; two sisters, Mrs. Hattie Lord and Mrs. Mary Day, both of Portland; and several nieces and nephews.

Funeral services were held Thursday afternoon at 1:30 o'clock from the home.

No one knows the gentle heart, aches; Only those who have lost can tell Of the grief that is borne in silence For the ones we love so well.

Into everybody's garden A little rain must fall, Or life's sweetest, fairest flowers Would not grow, or bloom at all, And so when clouds hang heavy; Oh, so heavy, my friend, Remember that God who sends the shower, Will send the rainbow's end.

MEETING NEXT WEEK TO CONSIDER INVITING NEW LOCAL INDUSTRIES

There is to be a meeting of the business men of the town at the Legion rooms on Thursday evening of next week at 7:30. The purpose of the meeting is to see what action may be taken by the business men as a group to promote the establishment of new industries in the town. There appears to be widespread interest upon the part of the business men, and it is hoped that the meeting will be well attended.

MOTHERS' CLUB COLONIAL SUPPER TO BE DIFFERENT

Have you ever wished you had lived in the days of powdered wigs and hoop skirts? If so, be present at the Colonial Supper being planned by the Mothers' Club at the M. Church dining room, Feb. 27. You will be greeted by George and Martha Washington; your table presided over by gracious colonial matrons and served by belles of the period. In the mellow glow of candle light you may forget, for a time, the hustle and bustle of present-day living.

DEVIL'S KITCHEN SKI TRAIL DAMAGED

Local skiers recently invited guests of our town to try the ski trail, only to find it unusable due to damage done by the youngsters who have been using the trail with no regard for its resultant poor condition. The builders of this trail, having put in a considerable amount of time and labor, feel justified in appealing to the younger skiers (and perhaps a word to them from their parents would help), to refrain from using the trail unless they are willing to cooperate with the builders in its upkeep.

DEVIL'S KITCHEN SKI TRAIL DAMAGED

Local skiers recently invited guests of our town to try the ski trail, only to find it unusable due to damage done by the youngsters who have been using the trail with no regard for its resultant poor condition.

The builders of this trail, having put in a considerable amount of time and labor, feel justified in appealing to the younger skiers (and perhaps a word to them from their parents would help), to refrain from using the trail unless they are willing to cooperate with the builders in its upkeep.

The downhill skiers of Bethel feel that a downhill course is no place for ski-jumps, and yet the trail has been made unskiable not only by h-leas and broken turns but by the building of jumps in the trail at frequent intervals.

It is not intended to discourage skiing among the younger skiers, but rather to teach them the proper use and care of our trails. Let's be more considerate in the future.

SHIPS TO FLY IN TWO STATE CHOPPING CONTESTS

Two wood chopping contests, one open only to farmers representing Maine counties and the other open to all are scheduled for Farm and Home Week at the University of Maine, says A. D. Nutting, who is in charge of entries for the contests.

The farmer's contest is open only to non-professional choppers who must file their entry with the county extension agent in their county. Choppers must furnish their own axe, which cannot weigh more than four pounds, nor have a handle shorter than two feet.

The open contest differs from the farmer contest in that a preliminary chopping contest just before the main events will select the four fastest axe-men.

In both contests, poplar trees set firmly upright will be cut at the stump, three feet above the stump and six feet above the stump.

Three prizes will be awarded in the farmers' contest and two prizes in the open match. Entries in the open contest must be filed with the department of forestry, University of Maine, one week before the contest, or not later than March 16. Entries in the farmers' contest should be made now with county extension agents.

The family of G. W. Q. Perham have all been suffering from very bad colds.

INTENDED ACREAGE OF EARLY POTATOES

Intentions to plant estimates for the commercial early and intermediate potato areas point to an acreage of 265,400 acres in 1936 as compared with 272,100 acres in 1935 and an average of 301,600 acres for the preceding five years, 1930 to 1934, indicating decreases of 2 1/2% below 1935 and 12% below the five year average.

The acreage in Florida and the Lower Valley of Texas, part of which is planted, is expected to be almost 3% smaller than that of a year ago and 16% smaller than the five year average. The intended acreage in the seven other early areas (Ala., Calif., Ga., La., Miss., S. C., and Texas, other) however, appears to be almost 4% larger than that in 1935 but 9% smaller than the five year average.

Reports from the second early, intermediate (1), and intermediate (2) groups of states indicate decreases below the 1935 acreage of 4, 3 and 7% respectively. Reports of planting intentions, as of January 1, were received from growers during the first week of January. It is not possible to determine at this time the degree of influence, if any, exerted by the Potato Act on this report.

By mild ripe tobacco we mean just this —

FIRST—ripened in the sunshine... and picked leaf by leaf from the right part of the stalk when fully ripe.

THEN—each day's picking cured right by the farmer... at the right time and in the right way... no "spotting" or brittleness, but every leaf of good color and flavor.

FINALLY—bought in the open market... re-dried for storage... then packed in wooden hogsheads to age and mellow for two years or more until free from harshness and bitterness.

That's what we mean by mild, ripe tobacco. And that's the kind of tobacco we use to give Chesterfields their milder, better taste.

BETHEL NEEDS

More and Better Sidewalks—winter
and summer
Night Watchman—All the Year
Rural Fire Protection
Enforced Traffic Rules
Australian Ballot System for Town
Meetings

NOTHING CAN BE DONE ABOUT IT!

Bethel people are generally
agreed on the advantages of their
home town, even if they are in-
clined to reflect at times on its
shortcomings. And they would
without a doubt be resentful of
outsiders agreed with them while
they indulge in kicking about local
conditions. That is good. We should
try to are our imperfections of
course, and make a conscientious
effort to better our town.

It is interesting and almost dis-
heartening to listen to the wall of
nearly everyone when talking of
the local industrial situation. They
admit readily many advantages of
Bethel its location as to railroad
and highway facilities, its school
to attract families to the vicinity.
Its resources on the way to its wait-
ing labor and vacant factories. And
yet they say "nothing can be done
about it."

This is not true, or anyway we
don't believe it yet, though nothing
has been done about it. Business
and industry are over-changing
expanding business high tax rates
and other factors are causing
people to seek new loca-
tions.

A little organized effort in the
of our town's good points to the
right parties might well prove ef-
fective and mutually profitable—to
the new enterprises, to incoming
and local labor and to the town
as a whole. Let's say "something
can be done about it."

WHIST PARTY BENEFIT GIRL SCOUTS

A very pleasant evening was
spent at the home of Mrs. H. H.
Gardner Thursday Feb. 12th when
the Town Committee of our local
Girl Scouts sponsored a whist party.
There were 14 tables in play.
High scores for women going to
Mrs. Thomas Laffin, low score to
Mrs. Robert Hill. High score for
men Henry Bombardier and low to
Mr. Stearns. There was one table
of bridge with Mrs. L. H. Hill
and Mrs. H. H. Gardner. Refreshments
of home made candy and peanuts were
served.

The Town Committee wishes to
thank all the friends and players
for making this party a success.

The first of the group have just
been their third year with Mrs.
John Jones as a result and Miss L.
Van and Mrs. H. H. Gardner as
mentors. There are about 20
members in the Girl Scouts at the
present time. The Town Committee
are anxious to raise money to help
and some of the girls to camp
in the summer.

About two months ago, the Town
Committee held a dinner and dance
to the honor of one local citizen,
perfect Mrs. Towdell. We have
never before had thanks to
those who gave so kindly, so at this
time we wish to thank them for
their generosity.

Where the Taxes Come From

By RAYMOND PITCAIRN
National Chairman
Sentinels of the Republic

"Taxes are paid in the sweat of every
man who labors."

Congress, as this is written, is be-
ginning to remember that profound
truth—and to realize that the public
remembers it, too.

Therein lies a headache—not only
for Congress but for all other officers
of government, whether national,
state or local, who have spent the
people's money at such amazing
speed during recent years.

The trouble is that in proportion
to public expenditures, there are
fewer earnings for the tax-collectors
to levy on than there were, let's say,
a decade ago.

Recently published figures have
brought this fact dramatically to the
taxpayer's attention. They show, for
example, that whereas in 1923, taxes
took one-eighth of the national in-
come (which means the earnings of
all the people), by 1932, they took
one-fifth, and by 1935 more than
one-fifth.

Or put it another way! In 1923,
the average American labored one
day out of every eight to pay the
costs of national, state and local
government; in 1932 he labored one
day out of every six for the same
purpose, and in 1935, one day and a
few hours over out of every five.

Yet even that didn't meet the
whole cost. If government last year
had paid all its bills in cash, nearly
one-third of all the money earned
by the American people would have
been required to balance the ac-
count. Instead government bor-
rowed, which means that the bill
must be paid out of future earnings
of the workers or their children—
still in the pocket of the man who
labors.

Today the politicians are search-
ing feverishly for a method of pro-
ducing taxes without the inevitable
sweat. They find it a difficult job.
Perhaps they are approaching it at
the wrong end. If they want to make
things easier for the people, who
ultimately pay the bill, they can
turn their thoughts to the problem
of spending fewer billions, rather
than to the question of how to col-
lect more.

Why Tusaregs Are Black and White
Tusaregs are rather nomads in
the middle Sahara. There are about
900,000. The litham is a common
article of their attire. It is a
cloth wrapped about the face as a
protection from the dust of the desert.
The middle Tusaregs wear black
lithams while the fertile Tusaregs
wear white; hence, black Tusaregs
and white Tusaregs.

Why Soldiers Refer to "Blighty"
The expression "Blighty" came
into regular use during the World
war, but was known to British sol-
diers who had served in India years
before. The India word allayal or
Blight means provincial or at a dis-
tance, and was adopted by soldiers
as meaning the homeland.

ECONOMIC HIGHLIGHTS

Happenings That Affect the Dinner
Falls, Dividend Checks and Tax
Bills of Every Individual. National
and International Problems
Inseparable from Local Welfare.

It is a foregone conclusion that
there will be a great deal of talk
concerning Constitutionalism in the
next campaign. But it is a question
whether or not the ancient docu-
ment will be an active issue—that
is, whether a definite proposal will
be made to change the present di-
vision of powers between State
and the Federal government.

If some Congressmen have their
way, such a proposal will be a part
of the Democratic platform.
Democratic Representative Mon-
aghan of Montana has put forward
the most revolutionary plan of all.
He would have Congress pass a
law forbidding judges to declare
any act of Congress unconstitutional.
If a judge disobeyed this restric-
tion he would, under the terms of
the new law, lose his job on the
grounds that he had violated the
constitutional requirement of "good
behavior" on the part of the ju-
diciary.

Democratic Representative Hobbs
of Alabama wants a constitutional
amendment that would require the
Supreme Court to inform Congress
whether or not a law was unconsti-
tutional, if an opinion were re-
quested by the President, or two-
thirds of the members of both
houses. Part of this amendment
would be to eliminate the delay and
confusion that now follows the en-
actment of legislation of dubious
legality, such as the AAA and
SRA, which were in effect for sev-
eral years before the high court
consented them to oblivion.

Democratic Representative Ke-
lor of Illinois has proposed an
amendment which, in 25 words,
would practically remake the con-
stitution. His amendment reads:
"The Congress shall have power to
make all laws which in its judg-
ment shall be necessary to provide
for the general welfare of the peo-
ple." This would obviously leave
the Supreme Court entirely without
power to judge a law's legality in
the light of other sections of the
constitution—the justices would be
constrained to interpreting laws only.

Democratic Representative Cos-
tigan of Colorado wishes an amend-
ment which would give Congress
the authority to regulate working
conditions, establish minimum wages
standards, regulate production in
any industry and prevent unfair
practices. This sweeping Congress-
ional power would make possible
the re-enactment of a national law
of the NRA type.

Democratic Senator Logan of
Kentucky favors a similar amend-
ment which would permit Congress
to arbitrate labor disputes and to
regulate agriculture and industry.

One Republican Senator has also
proposed a new amendment, but,
curiously enough, this Senator's
views are more apt to fit those of
the Administration than of the Re-
publicans. He is Senator Norris of
Nebraska, who actively supported
Mr. Roosevelt, as well as Al Smith.
Senator Norris' amendment would
prevent the Supreme Court from
holding measures unconstitutional
without a majority of more than
two thirds of its members.

None of these proposals seem to
have much support at present. But,
on the basis that where there is
smoke there is fire, they serve to
indicate that the Constitution is
likely to come into the political
limelight. Most observers think
that the President does not want
to propose Constitutional changes
now—men close to him have said
he will stick by the Supreme
Court's decisions outlawing his po-
tential measures. Even so, many observers
are also of the opinion that, unless
he is willing to scrap his whole
recovery and reform program, he
may eventually have to ask for a
new amendment that will give the
federal power authority the Highest
Court has held it does not now
possess. And it is not by accident
that the principal Republican
spokesmen such as Mr. Hoover,
Mr. Borah, and Colonel Knox, are
devoting most of their speeches and
articles to Constitutionalism.

On June 15, the United States
Treasury can be called upon to pay
out \$2,500,000,000 in cash. This is
the amount of money required to
redeem the baby bonds ordered
paid to veterans by Congress, over
President Roosevelt's brief, aggres-
sive veto message. How many vet-
erans will actually take the cash,
and forego the 3 per cent com-
pound interest they will be paid if
they hold their bonds until 1945, is
a burning question.

A still more burning question is:
Where will the money come from?
Congress passed the bonus—but
left it up to the executive branch
to find the wherewithal.

The President does not want to
issue printing-press money. Nor
does he want to pay off the bonus
by issuing another bond issue. Many
think that he will ask Congress to
create new taxes to bear the cost.
In an election year, new taxes strike
fear into the hearts of all officials
running for reelection. Some fire-
works are to be expected.

A survey made by the American
Legion to determine what veterans
will do with their new money is
interesting. Thirty-four per cent
will go for investments and savings
or be held in unsecured bonds.
Twenty-six per cent of the money
will go for homes, farms and equip-
ment, and twenty-three and one-
half per cent for old debts. Person-
al expenditures will take about
eleven and one half per cent, and
new automobiles, five per cent.

NO SHOTS OF DUKE'S CHILDREN

New York City—Arriving in
London, the Duke of Marlborough
son of the former Consuelo Van-
bilt, declared "You may photogra-
ph the Duchess and myself, but I
must not take a picture of my chil-
dren. I am decidedly afraid of the
terrible gangs over here." Infor-
med that points in Florida, his de-
nation, were favorite winter re-
sorts of prosperous gangsters, he
said, "I say, I'm sorry to hear that."

POLAND TRIES TO COLLECT

Warsaw, Poland—For 32 mil-
lion Polish engines drag German tra-
ns on their way to East Prussia.
Guards look all doors so no one
can get on or off. Out of a total of
\$75,000,000 owed to Poland, \$10,
000,000 is for this railway serv-
ice across the Polish Corridor, a
months ago Poland served not-
ice that unless the bill was paid
railroad service would be cut. Ger-
many offered pay in commodities
no cash. Now Poland has cut in
Cross-Corridor train service in
and travelers have to make the
of it.

CRUCIFIXION IN SOUTH-WEST

Albuquerque, N. M.—The mar-
riage of Carl Taylor, free-lance writer,
his house-boy, Modesto Trujillo, a
spurred interest in the sect known
as Penitentes, entrenched in the
Sangre de Cristo Mountains near
here. Some think the boy resent-
his masters story of the stran-
ceremonies of the Brothers of the
Blood of Christ, which inclu-

LONG'S THEORIES CRUMBLE

Baton Rouge, La.—Considered
"yes-man" for Huey Long, Lieu-
tenant-Governor James A. Noe, su-
duly bounded into the Govern-
ment by the death of Governor
K. Allen, surprised the old Long
machine by naming Mrs. Long
S. Senator, suspending the 5-cent
a-gallon tax which burdened the
State's oil refineries and ended
"kick-back" of 5 per cent which
State employees paid into the
machine's coffers. The new Gov-
or also seeks a truce in the
with the Roosevelt administration.

BOOTLEG COAL

Harrisburg, Pa.—When the
pression closed many mines, the
destitute miners started to dig their
own shafts and helped themselves
an estimated \$32,000,000 annually
coal, which was dumped on the
market at cut prices. More than
score of State operators have ap-
pealed to Governor Earle for pro-
tection, but the Governor, oppo-
a huge increase in the State Police
force, replied: "When you see
enforcement officers certify that the
situation is out of hand, you'll see
State Police. You brought them
people here to mine coal, and now
lots of money from it. Now you
abandon them and expect them to
make a living out of thin air."

HERE AND THERE IN MAINE

The fishing schooner, *Grand

Saturday after a trip of more
two weeks from St. Johns.
The ship was blown far from

overboard. The schooner was
bound for Halifax.

In a \$75,000 fire at Machan

of the Washington State School
School was destroyed. The fire
started in the basement and spread

WAYS AND MEANS CLUB ANNIVERSARY
The Ways and Means Club of O. E. S. The meeting will be at Mrs. Perley Flint's cozy home on Broad Street. It is the wish of those who helped organize this club, also those few who have helped support it, that of the Eastern Star members are eligible to join would do wish we might look forward very happy new year, that might be a large membership more real active members who are interested. The club was organized in the hope that the members could help take care of expenses such as flowers and for the sick, and whatever expenses was needed, for re-arrangements and any small expenditures of a similar nature necessary. We think the club although supported by a chosen few has truly lived up to its motives as many sick members have been lovingly re-served by this club in the past. Let there be a larger number this year, and may we have fellowship among us and by social contact have a closer relationship.

GOULD DEFEATS BRIDGTON

Gould Academy won its fourth game out of ten starts, at Bridgton last Friday by the score of 35 to 31. The winners played an excellent floor game and had they any luck at all in their shooting would have "run-up" a rather one sided score. As it was the play was close in all but the third period when Gould outscored Bridgton 16 to 8 to make the score 29 to 21 at the end of the third period. Robert Chapman played a great game, relieving Daniels during this third chapter. He scored three field goals and two free throws for a point a minute average. Wentzel led the scoring with 11 points while Daniels followed with seven and Eddie Robertson with six. Quimby played a nice game in place of Stanley Brown who was unable to play because of illness. Quimby held the Bridgton star point getter, Shorey, to three field goals. Bob Browne was unable to sink a field goal but he had the Bridgton defense all upset with his fake

passing and dribbling. O'Neil Robertson also played well during the third period, although he like all the rest missed many easy shots.

LINCOLN THE COMPASSIONATE
(Zech. 7:9-10)

Rev. William Wood
We think of Lincoln, as of Christ
Embodying the best
That ever surged, volcanic-like,
Within a human breast!
Save this, truth, in awful crises,
When beaten by the rod,
The Christ alone gave ample proof
That he was One with God.
While Lincoln, bravest of the brave,
Which gory highways trod,
Slaved virtues that related him,
The mortal, man to God,
Compassion deeper far than life
Was his to feel and show,
And brave a death that others
might
The life abundant know.

Add raisins, butter, and beat well. Remove from fire, add vanilla and pour into a baked pastry shell. Spread with meringue, using the 2 egg whites and bake until browned.

And then try this stand-by which is inexpensive and delicious:

"Soul" is the subject of the Lesson-Sermon which will be read in all Churches of Christ, Scientist, on Sunday, Feb. 16.

The Golden Text is: "Unto thee, O Lord, do I lift up my soul. Show me thy ways, O Lord; teach me thy paths" (Psalms 25: 1, 4).

Among the citations from the Bible is the following: "And in the synagogue there was a man, which had a spirit of an unclean devil, and cried out with a loud voice, And Jesus rebuked him, saying, Hold thy peace, and come out of him, and hurt him not" (Luke 4: 33, 34).

The Lesson-Sermon also includes the following passages from the Christian Science textbook: "Science and Health with Key to the Scriptures" by Mary Baker Eddy: "Knowing that Soul and its attributes were forever manifested through man, the Master healed the sick, gave sight to the blind, hearing to the deaf, feet to the lame, thus bringing to light the scientific action of the divine Mind on human minds and bodies and giving a better understanding of Soul and salvation" (Page 210-11-12).
